

Discover all our solutions

Vesna offers a full line of portable compression fridges for the transportation of fresh and frozen goods.

Smart range:

Available in 12L and 20L, these design coolers, compact and connected to a Bluetooth application, can transport fresh and frozen food down to -18°C .

Steel range:

These high-performance portable refrigerator-freezers are ideal to transport perishable goods for your leisure and work activities. They are available in various sizes: 45L, 65L (Dual compartment), 74L and 100L.

Refrigerated container:

With a capacity of 450L, it is a true mobile cold room adapted to the size of a commercial vehicle. This box is used to transport fresh and frozen goods between $+10^{\circ}\text{C}$ and -16°C in order to respect the cold chain.

About us

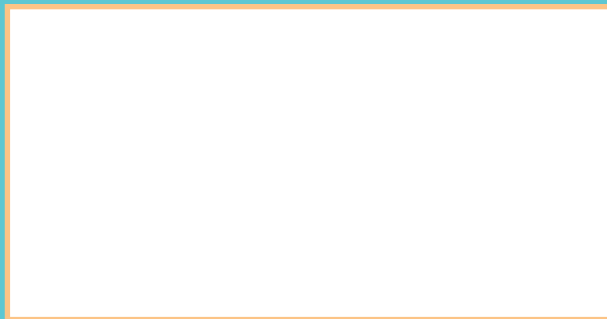

Vesna is the Transport Refrigeration division of **Electric Station Climatisation** company. Founded in 2008, Vesna develops and sales fully integrated refrigeration for commercial vehicles.

With its unique know-how, VESNA has become a benchmark in its field and today works with bodybuilders, but also for major retailers. More than 4000 vehicles are equipped with Vesna refrigeration systems in Europe.

In 2019, ESC started a new challenge: to offer nomadic refrigeration solutions adapted to the growing needs of sustainable logistics. VESNA by ESC has developed a complete range of mobile refrigerated containers and boxes fitted with compressors but also the V-bikes: a refrigerated and fully modular bicycle trailer for the last mile delivery.

Nomade

Mobile & Self-contained

Nomade

Designed for transport, **NOMADE** self-contained portable fridges will join you on all your trips. With the integrated battery, it guarantees a perfect compliance with the cold chain of your fresh and frozen products wherever you are.

Available on

FEATURES:

- Temperature adjustable between **+20°C to -20°C**
- **Dual zone** with individual temperature control
- Control by digital display or Bluetooth mobile application (CAR FRIDGE FREEZER)
- **Integrated battery** for self-contained use (optional)
- Power supply 12V/24V DC & 220V AC
- **LG compressor** for superior cooling performance
- **Eco-design** to maintain optimum temperature in any outdoor climate
- Products guaranteed for **2 years**

ADVANTAGES:

Detachable battery offering 10 hours of autonomy (optional)

Drain plug & LED interior lighting

Dual-swing door open

Wheels and handles for easy transportation

Cutting board and storage baskets included

Protective foot pad

APPLICATIONS:

Outdoor sports and recreation, catering, event, health professionals, product demonstrators, etc.
